LEVEL: PROFICIENT

Enhance your team's innovation efforts through the adoption of mechanisms that collaboratively capture, refine and progress ideas and innovations.

Effective innovation in the workplace involves the ability to review information critically and to conceptualise new and improved ideas, theories, practices or processes. In this innovation course you will develop your ability to foster innovative practices within your team. You will learn how to initiate opportunities for innovation and will be taught how to drive team and project initiatives by putting in place mechanisms for team members to collaboratively capture, refine and progress ideas and innovations. You will also learn the value of innovation, how to advance the innovation process, and how to effectively analyse opportunities and techniques and tools.

Hi! How can we help you?
