LEVEL: PROFICIENT

Learn the digital literacy skills critical for social life, working life and lifelong learning in an increasingly digitalised and connected world.

In an increasingly digitalised and connected world, digital literacy is a critical skill for social life, working life and lifelong learning. This digital literacy course will provide you with knowledge of the standard technologies required to explore, access, create, publish and share information. You will learn how to collaborate and provide access to information through use of these of digital tools. You will also engage with appropriate user policies to better understand how to protect your personal identity, privacy and rights in a safe and secure manner when communicating through digital technologies, and explore legal and ethical requirements. .

What You Will Learn

Participating in the digital age involves digital technologies, digital information and digital communication. In this course, you will cover digital technologies, digital information and digital communication.

Course Outcomes

- Use standard technology to explore, access, create, publish and share information relevant to a defined topic
- Effectively assess the quality and appropriateness of commonly used information sources
- Comply with relevant legal, user policies and ethical requirements (e.g. confidentiality, copyright, privacy) when accessing, collaborating, creating and sharing information using digital technologies to complete defined tasks and activities
- Protect personal identity, privacy and rights in a safe and secure manner when exploring, creating, sharing or connecting with others using digital technologies.
